CEOKER IS OUT AT LAST.

Tammany Hall seems at last to have t a little sense. It was expected that the reorganization would result in the permanent retirement of old and disgraced leaders. In the re-election of the old crowd every one of the many candidates last November must have been deeply disappointed. Other Democrats who had been expecting betor things were disgusted and turned away all the more quickly as these porthe plan outlined in the Spring by ex-Democrats of all shades of faith to com plete plans for a harmony ticket this year and next.

Since then two things have happened that rouse some Democratic hope. Best of all is the fact that for the first time since he came of age Richard Croker has been left out of the Executive Division of Tammany. If the balloon is to go up, it will go up only because he is "not in it." The Jonah has been cast overboard.

Good, too, is the news that owing probably to pressure exerted by ex-Mayor Grant since his return home, the new Tammeny is to make a fact of a harmony committee of 100 Democrats from all organizations to secure victory. With Croker out at last and such a committee in sight Democrats are hop ing that they may find a party stand ard which they can rally around this Fall with pride and prospects of glory.
